

# FIREARMS REGULATORY ACCOUNTABILITY COALITION, INC.

---

December 9<sup>th</sup>, 2021

**FOR PUBLIC RELEASE**

**Re: FRAC's Capitol Hill Fly-In, December 2021**

Dear Members, Industry Partners, and Supporters:

On Thursday and Friday, the 2<sup>nd</sup> and 3<sup>rd</sup> of December, FRAC's leadership and legislative affairs team traveled to Capitol Hill to bring attention to the ATF's egregious and wide-sweeping recent regulatory actions. We met with over a dozen House and Senate Offices the first day and briefed over 60 staff members the second day. We were joined by Mr. Tim Harmsen of the Military Arms Channel as our guest speaker.

While Congress remains in a state of political gridlock and pro-firearms legislation seems unlikely to move at the present time, we are actively creating awareness of the profound ramifications of ATF's actions and generating substantial support for our cause among Congressional officials with an eye towards 2023 and creative solutions and opportunities that may arise in the meantime.

We sincerely appreciate Mr. Harmsen's generous time and help, the numerous House and Senate Offices for their time and attention in these important matters, and each and every one of our members, donors, and supporters for their generous support and for all that they do for the industry every single day. Your help makes what we do possible, and your generosity and commitment to the cause is greatly appreciated and of profound importance.

In liberty,
